AN OVEN TO COMPLETE
THIS PROJECT**

ADULT SUPERVISION REQUIRED

TIP: Read the instructions thoroughly before starting your project.

- 1 Place all of your designs on a work surface with the rough side of each page facing up. This is the side you will color.
- 2 Choose which type of plant you'd like your dino to defend & write the name in the blank space on each dino.

TIP: If you can, write or trace the name backwards on the rough side. Doing this will make the name look super bright on the smooth side once it's been shrunk.
- 3 Color in the design with your color pencils.
- 4 Cut out your design from the sheet. It's okay to leave a little space around the black lines.
- 5 Ask an adult to preheat the oven to 325°F & place your shrink art on a non-stick cookie sheet or lined with parchment paper.
- 6 Place a piece of parchment paper on top of the design to prevent curling and sticking to itself.
- 7 Bake for 2-3 minutes. The plastic will curl but shrink flat. Don't remove shrink art from oven until it has stopped shrinking.
- 8 Allow the shrink art to cool for a minute before touching.
- 9 Final art will shrink about 50%. (Actual shrinkage may vary.)

WARNING:
CHOKING HAZARD - Small parts.
Not for children under 3 years.
